There are so many words in the Bible that describe peace.

1. Can you think of some and share them in your group?
2. Talk about how important the peace of God is in our lives.
3. Why is it that sometimes we feel the peace of God and other times we don't?

Let us remember that we walk by faith not by sight. We definitely can not trust our feelings because they change moment by moment.

We like to pray for each other in our groups for many reasons, but especially because we are told to turn our worries and cares into prayers.
